Education

2019 - 2023

KASHMIR UNIVERSITY

Bachelor of Computer Applications

Skills

- HTML , CSS
- Javascript, ReactJs
- Redux Tool Kit , Axios
- Material UI , Tailwind
- Github, Postman
- MongoDB
- NodeJs, ExpressJs
- Jira

Red Stag Labs   Feb-2024 -- Aug-2024
Frontend - Developer (Intern)

- Gained hands-on experience in building and refining user interfaces using React and MUI, while contributing to key features in the LMS (Marvel minds) platform.
- Worked closely with senior developers, enhancing my knowledge of Redux for state management and Axios for API integration in a real-world LMS application.

National IT Solutions   July-2023 -- Jan-2024
Frontend - Developer (Intern)

- Developed responsive web applications using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Collaborated with the team on code reviews and discussions, promoting best practices in web design and development.
- Gained hands-on experience with Git, JIRA, and Agile methodologies.

Projects

Porfolio

- Developed a dynamic portfolio using MERN and Cloudinary, showcasing my projects, skills, experience, and certifications in real-time, making it easy to keep my professional profile current.ic charts.

Happyhurrytours

- Developed a fully dynamic platform using the MERN stack.
- Features include dynamic management of destinations, hotels, cabs, cab pricing, and tours.
- Enabled seamless online booking functionality for users.
- Designed and implemented an admin dashboard for managing all platform data and operations efficiently.

SukoonSphere

- Built a digital mental health platform focused on user engagement and community interaction.
- Key features include posting articles, a Q&A section for mental health discussions, story sharing, and profile viewing.
- Enabled users to follow each other, view posts, questions, answers, followers, and followings.
- Added a dedicated section for mental health professionals to contribute after a confirmation process.
- Developed the platform using the MERN stack with a focus on intuitive UI and seamless functionality.

H.B Beausite , Drivers Union , sabilane Tour And Travels

- Developed and hosted live websites on Hostinger: H.B Beausite and Drivers Union using React, and Sabilane Tour And Travels with ASP, delivering dynamic interfaces and a comprehensive travel services site.

Com-fy-Store:

- an e-commerce platform with React, Tailwind CSS, Axios, and Auth0, featuring intuitive navigation and robust security.

GitHub User Tracker:

- Developed an app that allows users to search GitHub profiles and view detailed analytics including repositories, followers, languages, and more, with charts powered by FusionCharts and secure authentication via Auth0.
